

## Description:

The cutting, forming and bending device C044 is designed to cut and form leads of axial components for vertical mounting. A variety of form shapes are available through the use of interchangeable die sets. The set up adjustments are simple and secured to provide accurate forming of every component lead.

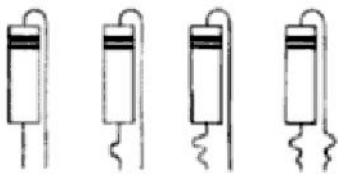

## Specification:

### C044

<b>Dimensions:</b>	200 x 450 x 200 mm
<b>Weight:</b>	About 8 kg
<b>Compressed air:</b>	5 - 6 bar
<b>Pitch:</b>	Min. 2.54 mm max. 5.08 mm
<b>Body Ø:</b>	Min. 2 mm max. 8 mm
<b>Body length:</b>	Min. 4 mm max. 10 mm
<b>Lead Ø:</b>	C044: 0.4 mm - 0.8 mm

<b>C044/S:</b>	0.9 mm - 1.4 mm
<b>Components:</b>	Loose or taped (hand feed)
<b>Operation:</b>	Pneumatic foot switch
